

Mr. Manhole

The Mr. Manhole chimney section rebuild tools were the hot topic at the recent UCT show in Atlanta. Michael Crites, the Company president, was a

featured speaker at the show. The topic of discussion was the systems ability to quickly remove and replace a manhole chimney, stopping leakage and eliminating the bump. Attendees learned that manhole repair is affordable and quick. Cities will get a return in investment in two years from treatment savings. The company sells the Mr. Manhole tool system and offers training and certification for Municipalities and Installers.
