

Municipalities

Traditional manhole removal and repair can be dangerous and expensive.

Mr. Manhole has revolutionized the industry. For more than 18 years the Mr. Manhole system has helped to save cities and municipalities time and money through safe and efficient repair equipment.

Improved Safety

The Mr. Manhole system improves the overall safety of your work crews. The heavy lifting is performed by the tools, protecting workers from injury. With less repair time, risks from disrupted traffic are minimized.

Save Manpower. Save Time. Save Money.

Level, watertight manholes aren't a luxury for residents, they're a necessity. Left untreated they can cause damage to vehicles and will deteriorate further and damage the manhole structures.

- ✓ *Cutting time reduced to approximately 10 minutes*
- ✓ *Start to finish in one hour*
- ✓ *Increase your number of projects*
- ✓ *Drastically reduce manpower*

Mr. Manhole cost savings

Let's compare our costs to the cost of the old method.

Labor: (5 men) @ \$44.00 per hr. x 5 hours	\$1,100
Concrete repair rings: (2)	\$96
Air Hammer Rental:	\$300
Concrete or Asphalt:	\$144

OLD METHOD
TOTAL COSTS **\$1,640**

Labor: (5 men) @ \$44.00 per hr. x 1 hour	\$220
Mr. Manhole Materials:	\$178
Air Hammer Rental:	\$0
Concrete:	\$66

NEW METHOD
TOTAL COSTS **\$464**

process works!**

Smarter, Faster, Safer

The Manhole Difference

We have options. Our capabilities reach outside of just manholes.

- Repair water valve boxes
- Storm catch basins
- Utility excavations
- Enhance paving operations

We have three manhole cutters to choose from. While all our machines perform a similar function, each has its own advantages depending on your project scope.

- Platinum • Six Shooter • B-52

"I have seen and used other cutters on the market. This is by far the most efficient, durable, and well-engineered cutter out there. We presently are using two of the Six Shooter models and have been for the last 2 years, and have not had one issue with them. Keep up the good work."

Ed Brown, Operations Coordinator | Hydro-Klean
